FORMATTING & TOOLS	EXTEND SELECTION - F6	FOOTNOTE EDITOR
F2 Toggle italic on selection F3 Toggle bold on selection F4 Insert table F5 Insert footnote F7 Spell check F8 Renumber current numbered list F1 Carriage Help	Left / Right Extend by character Up / Down Extend by displayed row Ctrl+Left/Right Extend by word Home / End Extend to displayed-row edge Ctrl+Home/End Extend to document edge F6 Exit mode; keep selection	Enter / Ctrl+S Save footnote Ctrl+X/C/V Cut / copy / paste text Esc Cancel

SELECTION NOTES Standard Shift selection shortcuts also work when your terminal passes them through.

 F2 and F3 are selection-only formatting commands. Ctrl+I is Tab in terminals, so italic uses F2.
